

FOG Tank Decarbonizer: Don't Scrub - Just Soak!

What is the FOG Tank?

FOG Tank is the safest, most effective FOG (Fats, Oils, Greases) and carbon-cleaning solution for all commercial kitchens.

Why use the FOG Tank?

FOG Tank cleans baked-on carbon from your cookware without scrubbing or damaging pots and pans. Using FOG Tank daily enhances efficiency, creates pride and offers significant savings.

- Water – Save approximately 750,000 gallons/year
- Labor – Save approximately 1,250 hours/year
- Energy – Save approximately 34,000 Kw-hours/year
- Capital – Save approximately \$18,000/year

How does the FOG Tank work?

FOG Tank quietly soaks your kitchenware clean in a constant 185° biodegradable solution. Simply place cookware into the FOG Tank, let soak, then rinse.

- FOG Tank cleans FOG and carbon
- FOG Tank liquid solution is Tiger Carbon Remover Powder and water
- FOG Tank solution is changed out in four-week cycles
- FOG Tank solution is safe for people, equipment and the environment
- FOG Tank is available in 3 sizes (40, 80, 120 Gallons)
- FOG Tank cleans all metals including aluminum (pots, sheet pans, sauté pans, ovenracks, fry baskets, hood filters, stove parts, gas rings, grills and more)
